INTRODUCTORY

The aim of this work is to give a complete and accurate index to the public and private educational system of the United States. The information has been thoroughly revised to date, and before final printing of the book, proofs submitted to the various school officials for final revision and correction.

In the main *Geographical Classification*, in addition to the public school officials, will be found a complete list of all schools and colleges, together with information as to the kind of school, class of students admitted, religious denomination, year established, and the name of the governing head of the institution. A second complete list of all institutions is given in the *Classified Directory* in which the schools are arranged alphabetically by states, classified according to the kind of school, giving a ready reference or complete list of any particular class of institution, together with the names of the executive officers. A complete *Alphabetical Index* of all schools and colleges will be found at the back of the book from which any institution may be instantly located.

The *Public School System* is fully covered by lists of the state educational officials and county superintendents of schools, the city boards of education, city superintendents, public high schools and principals, and the directors and supervisors of special subjects. A list of the more prominent *Libraries* with the name of the librarian and number of bound volumes, is included in the present volume. An *Educational Business Directory* is also given, which will be found

of much value to the school executive as a convenient and ready reference list of reliable manufacturers and dealers supplying every known need of the school and college.

It is believed the work will be found of value to every one in any way associated with educational institutions, or engaged in educational work. Acknowledgment is made to the various State and City Superintendents of public instruction, private school officials, librarians and others for their kind co-operation and assistance in furnishing data and information necessary for the completion of the volume. While no labor has been spared in the effort to have the work as accurate as possible at the time of going to press, continual changes necessarily preclude absolute accuracy.

School officials, librarians and others will confer a favor by notifying us of changes, and by calling our attention to any inaccuracies or omissions in any department of the work.

THE PUBLISHERS.

SCHOOL TEXT-BOOK COMMISSION

Public school text-books are required by state law to be furnished free by the several towns. There is no State Text-Book Commission and no state uniformity of text-books.

STATE TEACHERS' ASSOCIATION

WILLIAM B. WOODBURY, <i>President</i>	Farmington
ADELBERT W. GORDON, <i>Secretary</i>	Augusta

COUNTY SUPERINTENDENTS OF SCHOOLS

Maine has no county superintendents of schools, but has what is known as the "Union Systems" of school supervision. The towns and cities of the state, of which there are 517, are combined into groups by the State Commissioner of Education, and the members of the school committees of the towns in these groups elect one person to serve as superintendent of schools of the group or union, devoting his whole time to that work. The only exception to this arrangement is in the case of towns or cities having more than seventy-five teachers. These are allowed to elect a Superintendent of Schools to serve that town or city alone.

PUBLIC, PRIVATE AND ENDOWED SCHOOLS AND COLLEGES

Alfred, York Co., pop. 890. Town Supt.—M. E. Wright. High School—Hildon M. Brown, prin.	Ashland, Aroostook Co., pop. 2,172. Sch. Com.—Ray L. Rafford, chairman Superintendent—Lester Harriman High School—James A. Crowley, prin. Domestic Science—Marjorie Holbrook

SUPERINTENDENTS OF SCHOOLS

Vermont has the town system of schools. The schools of the state are chiefly under the direction of superintendents who give their full time to this work. Any town or city may elect a town superintendent or may combine with other towns in a supervisory district. The superintendents of these districts are elected by the local directors subject to approval by the State Board of Education.

PUBLIC, PRIVATE AND ENDOWED SCHOOLS AND COLLEGES

Alburg, Grand Isle Co., pop. 1,607.

Sch. Com.—R. D. Pearl, chairman

ADDING AND CALCULATING MACHINES

These machines may be divided into three general classes, (a) Listing, which provide a printed record of items and totals. (b) Nonlisting, which give only totals and do not print. (c) Computing, which are nonlisting and which are used for high speed calculating.

Burroughs Adding Machine Co.,
Detroit, Mich.

Felt & Tarrant Mfg. Co.,
1713 N. Paulina St., Chicago, Ill.

Remington Rand Business Service, Inc.,
465 Washington St., Buffalo, N. Y.

ADDRESSING MACHINES

These machines are manufactured in two general types, (a) Those making impressions by means of fibre or tissue stencils. (b) Those printing from type, including the machines using metal plates on which the characters are embossed. Either can be had in hand operated, or motor driven. Their special usefulness to schools arises with permanent mailing lists, such as the alumni, catalogue mailings, form letters and the like. The addresses may be imprinted on letters, envelopes, catalogue or magazine wrappers.

ART APPRECIATION COURSES

There is an increasing call for authoritative material with which to encourage picture study and art appreciation in schools. The purpose of these courses is to make pictures interesting. Let the student know how the picture came to be painted, the story or scene it illustrates, the life of the artist, how his work and his standing are regarded by contemporary artists, and make the picture live for him as it did in the eye of the artist who created it.

BALANCES

The common balance consists essentially of a beam resting at its middle point upon a fulcrum and furnished at its extremities with two scale pans; the goods to be weighed are placed in one of these, and known weights placed in the other until the beam assumes a horizontal position. In most of the delicate balances used for chemical analysis, the distance of the center of gravity from the fulcrum can be regulated within small limits. Such balances are protected from air currents, dust, etc., by being enclosed in glass cases with sliding fronts. See, Laboratory Equipment.

BAND AND ORCHESTRA INSTRUMENTS

Through a school band and orchestra the message of music and a better appreciation of its value are carried to a larger number of people in the community. In every school will be found a nucleus

BIOLOGICAL MATERIALS AND SPECIMENS

These consist of preserved materials of all types of animal and plant life for use in classwork, and for the museum. Life histories of insects, and of plants, showing stages of development, are put up in exhibition cases, mounted, and in glass tubes. Preserved materials of algae, fungi, liverworts, and mosses, for botanical study. Every school and college giving courses in nature study, biology, or agriculture, have need for such materials.

BLACKBOARDS

The schoolroom blackboard should be easy to write on, easily read from and easy to clean. The writing surface should be uniform in color, smooth and non-porous. See, Blackboards, Composition; also, Blackboards, Slate.

BLACKBOARDS—Composition

These boards are made up of paper, wood, gypsum, or some other composition as the base, and are then coated with a material that will produce a suitable writing surface.

TRADE INDEX

BLUEPRINT FRAMES

These frames are similar in construction to a photograph printing frame except that they are much larger. The majority of them rely on the sun's rays for printing. There are some, however, known as vacuum frames, that are adaptable to either sun rays or electricity.

Dietzgen Co., Eugene, Chicago, New York San Francisco, New Orleans.
See announcement on page 961

BLUEPRINT PAPER

This paper is a specially prepared sensitized paper. When tracings are placed in contact with it and exposed to light rays, the drawings will be reproduced on the paper in white lines with a blue background after the paper has been developed by immersing in clean water.

Chicago Blue Print Company,
68 W. Washington St., Chicago, Ill.

BLUEPRINTING MACHINERY

A variety of types and sizes are available to suit particular requirements. The continuous vertical type employs a revolving glass cylinder and will handle work of any length up to 42" wide, the arc lamp as well as the machine itself motor driven. The non-continuous vertical type uses segments of curved glass, will handle only sheet work, while the arc is raised with a hand crank and dropped by gravity. The horizontal type of continuous machines are motor driven, and are available for work up to 54" wide, the length being unlimited. Mechanical and shop drawings, graphs, sketches, typewritten quizzes, records, specifications, notices, lesson sheets, reports, and other matter can be quickly reproduced.

Dietzgen Co., Eugene, Chicago, New York San Francisco, New Orleans.

BOOKPLATES

A label, impression, or inscription, showing the name or monogram of the owner of the particular book and frequently adorned with artistic embellishments, besides showing the owner's arms or heraldic device. They are generally pasted just inside the front board or cover of the book.

Handicraft Co.,
Minneapolis, Minn.

BOOKS

School boards and teachers are convinced of the advisability of providing for pupils' supplementary reading, and the number of adequate school libraries is constantly increasing. New books must be added to these libraries regularly if they are to be popular with the children. Boys and girls should be encouraged to think of books as part of the joy of life, and reading in no sense a duty.

BUILDING DIRECTORIES, CHANGEABLE

A large changeable bulletin board used in school buildings of the larger type where it is necessary or desirable to have some method of directing visitors to executive offices, classrooms, libraries, museums, or individuals.

Tablet and Ticket Co., The,
Chicago, New York, San Francisco.

BULLETIN BOARDS

Notices displayed on a bulletin board will often receive attention where important verbal announcements sometimes fall on inattentive ears. See, Bulletin Boards, Changeable; also, Bulletin Boards, Cork.

BULLETIN BOARDS, CHANGEABLE

These boards are being made in several different types. In one type the letters, which are die cut, can be had in various sizes and colors and these letters are held on to the board by tabs which fit into slots. Another type uses letters which are printed on individual cards and which fit into slides in the board. Their usefulness lies in the ease with which bulletins may be changed or altered at will.

Newman Mfg. Co.,
Norwood Station, Cincinnati, O.

TRADE INDEX

Tablet and Ticket Co., The,
Chicago, New York, San Francisco.

BULLETIN BOARDS, CORK

Practical for display purposes in halls, library, cafeteria, gymnasium and in the classrooms. Thumbtacks can be pushed easily into the cork and can be removed readily without the use of tack puller or knife. Manufactured in framed and unframed panels.

CATALOGUES FOR SCHOOLS

All colleges, private schools, and a large number of the preparatory and high schools, issue annual catalogues and other booklets. A large majority of these publications are profusely illustrated with pictures of the school buildings, campus, athletic field, etc. Certain printing firms are catering to this type of work, and can give to the school executive many ideas and helpful suggestions on the general makeup of such publications.

CINEMATOGRAPHS

Apparatus for projecting on a screen in rapid succession a series of pictures representing successive stages of appearances involving motion, thus producing a sensation of a continuously moving picture. Machines similar in principal are known by the names of biograph, bioscope, kine-scope, etc., and the effects they produce are called moving pictures. See Moving Picture Projecting Machines.

CIRCUMFERENTORS

A mathematical instrument used chiefly in connection with the surveying of mines. It consists of a compass, with diametrical sights, the dial of which is divided into degrees. This is attached to a stand and can be adjusted so that the angle which the line of sight makes with the magnetic north can be observed on the dial. See, Surveying Instruments.

GLASS PINS AND RINGS

This type of jewelry is usually made up in more or less standard designs which can be adapted to any school. Special designs can be had if desired. They are generally purchased by a student committee under the supervision of the principal or other school administrator.

COSTUMES FOR CHILDREN

For the younger children in kindergarten, grades, and camps, special costumes of the Fairy-tale and Mother Goose characters are needed. Some firms specialize in creating these characters.

- Baxter Costume Co.,
47 Hanover St., Boston, Mass.

CRAYONS

Crayons for school use are of both chalk and wax. Chalk should be free from grit and grease, should not scratch the blackboard, and should be as nearly dustless as possible. Wax crayons are used largely for art work, and come packed in boxes of assorted colors. See, also, Colored Pencils.

See announcement on page 949

CRUCIBLES

Open vessels used for melting and calcining substances which need the application of extreme heat, such as metals ores, glass, etc. They must be made of some infusible, unbreakable substance. Those made of fire-clay and coarse sand is the commonest kind. For analytical purposes platinum and porcelain are much used. Lime or carbon crucibles will withstand the highest temperatures. See Laboratory Equipment.

CURTAINS, STAGE

School auditoriums equipped for any form of theatricals or entertainment require a stage curtain. These curtains are made to order and can be had either in the type used by theatres, or in the form of a drape made from velour or other heavy fabric.

DENTAL EQUIPMENT

The care of the teeth of the student is a very important means of caring for the health of the child. Schools are requiring periodic examinations of the teeth of all pupils, and in many instances caring for the needed work through a staff dentist.

Betz Co., Frank S.,
Hammond, Ind.

DEODORANTS

Only materials that actually destroy and remove foul odors may be properly termed deodorants. Products that merely cover one odor with another that is stronger are neither practical, efficient, nor economical.

Brighter Floors Make Happier Classrooms

DURA-SEAL the outstanding wood finish of all time now made
 Reg. U. S. Pat. Off. in colors as well as the natural.

Dura Seal has the official endorsement of the Maple Flooring Manufacturers Association and the Southern Oak Flooring Industries. Has withstood the toughest traffic tests that you would ever ask of any wood finish.

Has saved more money than it cost in many instances through reduced maintenance costs.

Has produced these completely new and different results because it penetrates the wood; hardens and

dries below the surface forming a permanent, flexible seal that is impervious to, and unchanged by dirt, stains and moisture.

Tell us fully the present condition of your floor and the results you wish to obtain—without obligation we will send complete information that will be interesting and helpful to you.

Approved finishing and maintenance products, also, for linoleum, asphalt tile, cork and other types of flooring.

TRADE INDEX

DEODORIZERS

This equipment is a means of destroying bad odors in a room or building. Some of the types actually spray a deodorizing chemical into the air, while others allow the material to evaporate and mix with the air in the room. They are especially valuable in large school assembly rooms where there is danger of the air becoming stale.

Holcomb Mfg. Co., J. I.,
Indianapolis, Ind.
Huntington Laboratories, Inc.,
Huntington, Ind.

DESK NAME PLATES

These are made in the form of a small easel of metal, glass, wood or composition, with the name of the individual cast or painted on the board, or as in some types, with paper letters which can be changed.

Mayer Co., Geo. J.,

DESKS

The school desk or chair plays an important part in the shaping of the physical body during the formative stage of school life. A comfortable position for both teacher and pupil must be the background for all sustained mental effort. See, Desks, Pupils; also, Desks, Movable Chair; also, Desks, Teachers.

Yawman and Erbe Mfg. Co.,
1099 Jay St., Rochester, N. Y.
See announcement on page 955

DESKS, PUPILS

School seats and desks for the pupil should be constructed in such manner as will be most conducive to the comfort and health of the occupant, permitting of an easy and natural writing or study position for the child. In addition they should be both durable and sanitary. Various types and styles are offered by the different manufacturers. See, also, Desks, Movable Chair.

THE POPULAR MECHANIC

ELECTRIC WORKSHOP

Manual Art Schools Special Proposition to Schools

EQUIPMENT

Wagner $\frac{1}{4}$ H. P. Motor, 8" Sander Disc, Circular Saw, Jig Saw, 30" Lathe with 9" swing, Black & Decker $\frac{1}{4}$ " Drill, Electric Glue Pot. Accessories include 5" dia. Face Plate, $\frac{3}{8}$ " Three-jaw geared Chuck, Spur and Cup Type wood Turning Centers, Arbor and Flange, 6" Cotton Buffs, 6" Wire Brushes, 5" Emery Wheel, Adjustable Tool Rest, and Tool Supports with Bed Clamp, Two Turning Tools and Socket Wrenches.

Fully Guaranteed

IDEAL FOR SCHOOLS, CARPENTERS, PATTERN MAKERS, ETC.

Mac, THE POPULAR MECHANIC, is sturdy, dependably built, accurate, a practical outfit fully guaranteed. It provides the student with accurate machinery with which to do jig sawing, spindle-work, rip or cross cut sawing, sanding, grinding, polishing, drilling, and many more operations, in a workmanlike manner. It is suitable for making tables, benches, chairs, desks, novelty furniture, for doing repair work, building bird houses, etc. Its price enables the school to have several outfits for students use at the same cost as one of the larger factory outfits. "Mac," does the same class of work as larger outfits.

Special Price To Schools

At regular prices, Mac, THE POPULAR MECHANIC, gives maximum value. Our prices are surprisingly low. We want every Manual Training School to have one or more of these outfits and we therefore will give you a substantial discount from regular prices. Write for our special school proposition today.

DRAWING BOARDS AND TABLES

Drawing boards should be so constructed as to eliminate any possibility of warping out of square. Some boards are unmounted which may be used any place, while others are mounted in some manner. The mounted boards may be arranged so as to be folding or stationary. The stationary boards are made with iron or wood pedestals, and in some cases are provided with drawer space to take care of instruments, paper, and other materials.

DRINKING FOUNTAINS, SANITARY

These fountains are of the bubbling type, and are manufactured in pedestal and wall design. Where the water does not need to be purified they are attached direct to the water supply pipes. In case filtration is needed, the filter is attached to the supply pipes and the fountain operated from the filter. Sanitary drinking fountains are being installed in modern school buildings, on the playground and the athletic field, as they provide pure, fresh, clean water at all times, and in addition prevent the spread of contagion arising from germ-laden mouths.

EASTMAN CLASSROOM FILMS

*Now used by school systems in thirty foreign countries
 as well as in the United States*

The teaching value of Eastman Classroom Films is clearly indicated by the fact that they are now being used not only in the United States but in thirty foreign countries as well.

About one hundred films are now ready on topics of General Science, Geography and Health, and many more are in preparation. Others are scheduled for early production, in accordance with a carefully worked-out plan to cover comprehensively all topics that lend themselves to treatment by the motion picture.

Send for your copy of "A New Descriptive List of Eastman Classroom Films."

Von Duprin

Self-Releasing

Fire and Panic Exit Latches

VON DUPRIN Self-Releasing Fire and Panic Exit Latches are so simple in design, so sturdily built, so dependable in operation that they have become standard equipment on the school house doors of most of the larger American cities and many of the smaller ones.

Their high quality and reliability gives them such freedom from trouble and from servicing expense that their cost per year is surprisingly low.

FENCES, SCHOOL

In addition to added property protection and ornamentation, fencing the school yard and playground will be found a wise precaution for safeguarding school children. A substantial fence and gates keep the children within bounds, bar intruders at all times, control admission, and lessen the burden of supervision. Special fences are likewise essential for the tennis court, campus, and athletic field.

DURABILT GYM LOCKERS*Save and Beautify—with steel***GYM LOCKERS**

The efficient gym locker arrangement illustrated consists of one large locker for street clothing and six small lockers for gym suits, togs, etc. This arrangement could be varied by adding small lockers in double or triple tiers. The doors are usually equipped with padlocks. Write for descriptive literature and prices.

**SHOE LOCKERS**

Shoe Lockers, either single tier or double tier are often recessed in the gymnasium walls, or stood in an adjacent room where they are accessible to gym class members who may require only shoe storage.

Shoe compartments are usually 6"x6" but other sizes that work out in proper multiples can be furnished. Write for further information and prices.

CHICAGO, ILL.

BROOKLYN, N. Y.

ILLINOIS, ORLEANS AND KINGSBURY STS., CHICAGO

Food Supplies for Educational Institutions

The institutional buyer demanding value insists that to have value quality must be maintained. This uncompromising attitude has resulted in careful and scientific analyses. It has developed a fine appreciation of the economy of better foods. Better foods mean increased efficiency and more satisfied guests and pupils.

Fifty years of specialized service in the supply of Hotels, Restaurants and Institutions has enabled us to know something of the problem confronting institutional buyers. Out of this knowledge and cooperation, we have evolved an assortment of foods particularly suited to their individual requirements. Our Edelweiss label has become the symbol of fine foods economically packed.

Sexton special quotations are mailed each month to the institutions of America and offer the very latest values on merchandising suitable to the particular requirements of the exacting clientele serviced by Sexton. Wherever close and intelligent buying prevails, our prices are received with interest. Please write us if you are not receiving them.

COFFEE IMPORTERS, BLENDERS AND ROASTERS

Quality Since 1883

John Sexton & Company

America's Largest Distributors of No. 10 Canned Foods

P. O. BOX-JS, CHICAGO

66 IMLAY ST., BROOKLYN

If you went into the finest garden and selected the vegetables to serve your pupils you could find no better than those which come to you packed under the Edelweiss label. Each vegetable distributed by Sexton is selected where soil and climate are best suited to its perfect production. Picked at just the right time, and packed on the spot, they reach you retaining all the vitamin value, full flavor and succulence of the fresh vegetable.

All of Sexton's Canned Fruits are equally delicious. All are allowed to completely ripen in the sun before being picked. Each fruit is obtained from the locality where it grows best—and then only the choice of the crop is taken. Packed in No. 10 tins, the container most economical for school cafeteria use.

Among other Edelweiss Foods particularly popular with school cafeterias are: Individual tea, cocoa, gelatine dessert, chocolate pudding, peanut butter, macaroni, spaghetti, canned fish, paper napkins and paper specialties, Edelweiss No. 10 cans soups, dried fruits and tapioca.

Delicious Edelweiss preserves, jellies, marmalades and fruit butters, made in Sexton's Sunshine Kitchens, are of excellent quality because the materials from which they are made—selected fruits and cane sugar—are the finest obtainable. They are made with great care, in small quantities, giving them the beautiful color and the delicious appeal of home made preserves. In our Sunshine Kitchens we also prepare a complete assortment of pickles, relishes and condiments of quality. Edelweiss quality mayonnaise dressing, catsup, mustard and chili sauce packed in handy gallon glass bottles.

If one of our representatives has not called on you please write us.

TRADE INDEX

should be made on the basis of subsequent maintenance cost; the appearance of the floor and the preservation of the floor.

INKWELLS

A correct type of inkwell should be provided for both teacher and student. A suitable well for students is one that is airtight; the top should be in line with the surface of the desk, insuring no interference from books and papers.

JANITORS' SUPPLIES

This classification includes such materials as brooms, brushes, dusters, mops, mop

Athey shades have been installed in many hundreds of schools. They are essential because there is perfect light control which is particularly important in schools, thus eliminating eye strain. They function as an automatic ventilator, they are never touched with the hand, they are good for 10 years of service and hence economical, and very attractive in appearance. Circle heads may be treated with sunburst shades.

The cloth is a herringbone woven coutil, 200 threads per square inch, guaranteed sunfast, pleated to $1\frac{3}{8}$ ", stitched at each fold and made in 7 colors. They raise from the bottom and lower from the top, sustained at each side by strained brass wires as shown by the sectional cut. The cord case at the head is a steel channel with brass rollers for the cords, both the wires and cords passing through perforations in the cloth.

This skylight installation is in one of many school installations in Cleveland, two large skylights operated in unison with an endless woven wire cable diverted over ball bearing shives, which leads to a winch back stage. The principle in operation is the same as the vertical shade except that it operates horizontally, sustained on taut wires by brass clips at each fold of the cloth. When moving pictures are shown the collapsed shades emerge from the pockets which conceal them and disappear in like manner when not in use.

Cloth-Lined Metal Weatherstrip

Is produced solely by this company and is the only weatherstrip which prevents the infiltration of dirt as well as cold air, and the same method is used in treating metal windows.

The City Sanitarium of St. Louis, the largest hospital in the country, was weather-stripped two years ago. They report that the first winter they abandoned one 350 hp. boiler, saved \$10,500 in coal plus the cost of stoking this extra coal and removing ashes, and cancelled a \$2,000 order for blankets.

LATHES

Lathes for school shops are of two types; those for metal working and those used in the woodworking courses. The metal-working lathes used by schools include the speed lathe, the engine lathe, and the turret lathe. The engine lathe is probably the most used since all work such as turning and screw cutting is done on it. The turret lathe which is used for multiple operation work will be found only in schools teaching advanced machine shop courses. The speed lathe is used almost exclusively for small operations such as polishing, etc.

PILZ

ANATOMICAL MANIKIN

Every College and School Should
Have These Manikins

A Manikin is a complete, lithographed reproduction of the human body. It hangs upon the wall when closed, occupying the space of a picture. Open it, and fold after fold you turn just as you would turn the pages of a large book. So you pass from the skin to the skeleton. You see in its natural colors, life size in exact position, every vein, nerve, muscle, organ and bone in the body. The name of any one of these can be learned in a second by referring to the volume which goes with every manikin in which the 455 numbered parts are indexed. All anatomical facts are before you for reference and demonstration.

Life Size, 5 ft. 5 in. high. 455 parts, 30 folds
Male \$18.00 Sexless \$18.00
Female \$21.00 (with obstetrical supplement)
Sent on receipt of N. Y. check or C. O. D.
Money Back Guarantee.

Graphing the School Report

In presenting this School Report we have followed the lead of Big Business. More and more, each year, Business is dropping statistics and using the Graph Line to drive home their story.

This report has the advantage of graphically indicating the standing of the student far more forcibly than a mere tabulation of the numerical percentages would indicate, whether the change is an advance or a decline.

Line 75 (the danger line) printed in red

Visual School Report Company, Greenfield, Indiana

Copyright 1925, James N. Goble, Greenfield, Indiana.

Made in Monthly, Six Weeks, and Quarterly grade periods.

For sample report cards, address

THE VISUAL SCHOOL REPORT CO.
Greenfield, Indiana

TRADE INDEX

MEMORY BOOKS

School memory books in which may be preserved photos, souvenirs, writings and mementos, are manufactured in many designs. Especial pleasure and value will attach to these lasting memories where the books are embossed with special school designs, or with fraternity and sorority crests.

Oldach Company,
46 N. Sixth St., Philadelphia, Pa.

METAL DOORS

Cincinnati Mfg. Co.,
1800 Gest St., Cincinnati, O.
See announcement on page 957

METRONOMES

Used by music students for indicating and marking exact time. The device consists of a pendulum driven by a spring and wheel which ticks the oscillations. The period of the pendulum's vibration can be varied to any required time by the shifting of a movable weight, a graduated scale showing the number of oscillations per minute. See, Music and Music Supplies.

MICROMETERS

Instruments for measuring accurately very small angles or spaces, and are generally used in connection with a microscope or telescope. They are made in a great variety of forms, but in nearly all types the measurement is made by turning a very fine screw, which gives motion to a scale, lens, or ruled glass plate. See, Surveying Instruments.

MICROSCOPES

Microscopes for school work have considerable variance in quality and precision depending entirely upon the work for which they are to be used. They can be secured having a magnifying power from thirty or less diameters up to a thousand diameters. In the simple microscope a single convex lens, between the eye and the object, forms an enlarged image. In the compound microscope an object glass or objective, near the object, forms a real image, which is viewed by the observer through a magnifying eyepiece. Either objective or eyepiece, or both, may be composed of more than one lens.

Used as an aid in the teaching of physiology and anatomy, these charts will enable the student to visualize the subject of the lecturer. See, Charts.

American Thermo-Ware Co.,
16H Warren St., New York

PIANOS

Pianos are a necessary part of all school equipment, every school building being provided with one or more instruments. Schools having an auditorium should provide a grand piano. In schools where piano lessons are given, each practice room must have an instrument. In the grade schools a special small sized piano which can be moved from room to room is often used. This piano is also low enough that the teacher can see over the top of it and direct the singing of the class while playing.

PICTURE CORDS, SILK

These cords are made of heavy wire, and covered with silk cord, and have covered hangers and thick tassels, and are fitted with adjustable combination hooks for use on either nail or moulding.

PICTURE FRAMING SUPPLIES

For the many small items needed in the manual training work rooms, time and expense may often be saved by purchasing for one shipment from a house that operates work shops of their own.

PICTURES

Pictures used in class and assembly rooms are usually prints of well known pictures, and of famous men. Several firms also put out prints of well known pictures for use in art study, and which may be used to familiarize students with the best known masterpieces of the world.

PLAYGROUND APPARATUS

School playgrounds provide a very definite means of keeping the children off the street during that short period before and after school hours, and also provide a means for supervised exercise during the recess period. The equipment consists of swings, see-saws, universal waves, giant strides, slides, horizontal bars, flying rings, etc., which may be secured separately or in combination units.

PRINTING OUTFITS—SCHOOL

The teaching of printing in schools as part of their vocational work has met with much favor. In addition to its vocational value, printing teaches the use of punctuation marks, the making of proper margins, the use of good English, correct spelling, capitalization, and indentation in an accurate manner. School printing outfits are designed for the smallest schools to largest universities.

PROGRAM CLOCKS *See, Clocks*

PROJECTION LANTERNS

Apparatus for projecting upon a white screen enlarged representations of diagrams, pictures, etc., drawn or photographed on glass slides. They are a modified stereopticon in which an apparatus is introduced in front of the condensing lenses and a powerful arc lamp used. To project microscopic objects, a microscope objective is placed in the axis of the rays of the condensing lenses and the image of the object is focused directly on the screen. To project spectra, a dispersing prism is placed in front of the object lens. *See also, Stereopticons; also, Motion Picture Machines.*

PROTRACTORS

An instrument used in drawing and mathematical work for measuring and laying off angles, consisting usually of a graduated arc or circle bearing a radial arm, and sometimes a vernier. They are made of paper, wood, metal, celluloid, and other materials. *See, Drawing Instruments.*

PUBLIC ADDRESS SYSTEMS

Large indoor and outdoor audiences frequently require a public address system in order that they may hear distinctly and plainly every event on the program. In stadiums, parks, and athletic fields, these systems are used to report results, make

SCHOOLHOUSES, PORTABLE

Portable school houses, made of either wood or sheet metal, are factory built in large quantities and carried in stock ready for immediate shipment. They are delivered in sections, plainly marked, that they may be easily erected in a few days. They can be taken down at will and moved to another location. They are used for emergency needs to solve the pressure for more space, or where economy is necessary.

SEAT WORK

Harter Publishing Company,
2046 East 71st St., Cleveland, O.
See announcement on page 957

SEATING EQUIPMENT

The school hours have a vital effect on the health of both pupil and teacher. Incorrect seating makes the children slump down in their chairs, causing bent backs, crowded abdomens, and stooping shoulders, while correct seating encourages correct posture and builds enduring habits of health. See also, Desks, Pupils; also, Desks, Movable Chair.

SEXTANTS

An instrument for measuring the angular distance between two objects. One object is reflected on the other by means of a mirror; at the moment of coincidence the instrument may be clamped and the angle between the objects read off on the scale. See. Surveying Instruments.

SHADE ROLLERS AND PARTS, METAL

The hard usage of window shades in the school room often breaks parts of the fixtures, rollers, or slats. Instead of purchasing new shades, a material saving may often be made by ordering only the needed parts.

Steele Mfg. Co., Oliver C.,
Spiceland, Indiana.

WHAT IS IT WORTH TO YOU..

TO know that the stage requirements of your auditorium will be thoroughly understood; that the same genius which created practically all the outstanding developments in stage equipment and rigging during the last quarter of a century is applied to the problem of originating equipment for your individual stage.

AND to know also that all equipment installed is guaranteed and will maintain its initial efficiency throughout the period of its use.

THE value of such service cannot be measured or compared. Yet, it costs nothing. For in PETER CLARK, INC., installations you pay only for the equipment and the cost of installing it.

PRODUCTS: Complete Stage Rigging for Schools, Colleges, Auditoriums; Stage Hardware; Asbestos, Fire and Sound-proof Curtains; Draw Curtain Tracks; Electric Curtain Machines; Portable Motion Picture Booths; Portable Bleachers; Sectional Grandstands; Stage Draperies and Curtains.

See announcement on page 933

STATUARY

Statuary furnishes educational and illustrative material for several departments, from ancient history to art, and it serves a practical use when given to the school as a memorial from classes and organizations. Very good reproductions of well known "originals" are furnished in marble, bronze, or composition. When determining the material from which the statue shall be made, purchasers should consider the usage to which it will be put, whether it will be a feature of the exterior or interior of the school building, and whether it will be used as subject matter for art or other classes.

STEREOPTICONS

A double projection lantern, the objective tubes of which can be focused on the same part of a screen. One image after another may be brought on the screen by the alternate use of the lanterns, which gives the effect of one picture appearing to dissolve gradually into another. See, also, Projecting Lanterns.

TEACHERS' AGENCIES

The reliable teachers' agency offers a genuine service to teachers, and to school boards and school officials, by recommending suitable teachers for suitable positions. The agency collects definite and reliable information with reference to the character, training, personality, experience and professional spirit of each candidate. This information is presented in convenient form for the inspection of school officials.

... How to make YOUR FLOORS

*Beautiful and lustrous while
cutting maintenance costs 1/2*

CAR-NA-VAR is a scientific combination of varnish gum and waxes. It gives a beautiful, lustrous, yet non-slippery finish to wood, linoleum, mastic, concrete, cork, etc. . . . protects the surface indefinitely from wear . . . and cuts maintenance costs as much as 50%. Comes in "natural" and popular colors. Applied with a mop—ready for traffic in an hour.

RUBBER-VAR is a special treatment for rubber, soft composition and light colored terrazzo floors. Gives same desirable results as Car-Na-Var. It's water-proof.

Every person interested in the efficient and economical maintenance of floors should have a copy of "Floor Research". Written by a nationally known floor consultant. Write today for a free copy.

The Victor Interval Timer

measures any interval of time from
15 seconds to 2 hours

Warns "TIME IS UP"

DOMESTIC SCIENCE—CHEMISTRY—PHYSICS—ALL
LABORATORY CLASSES WHERE CORRECT TIME
ALLOTMENT IS AN IMPORTANT FACTOR, FIND
THIS TIMER A NECESSITY

The Santa Rosa High School says:

"The Interval Timer which we received from you recently is more than you claim for it. We use it several periods a day for our typing students and the teachers are enthusiastic in praising it—emphasizing particularly the freedom it allows them to carry on their other work while the classes are pursuing the five, ten, and fifteen-minute tests. We can't understand how we got along without it thus far."

NOT A CLOCK—*The mechanism is designed solely for the purpose of measuring any given time period within the range of 15 seconds to 2 hours, and sounds alarm at the expiration of that interval. The absence of complicated gears results in simplicity and sturdiness.*

WASTE BASKETS

School equipment and furnishings naturally receive hard usage, and the waste basket probably suffers most of all. They should therefore be made of wear-resisting material, and constructed to withstand the hardest usage. Wire, steel, vulcanized fibre, and like materials are used.

- National Vulcanized Fibre Co.,
Wilmington, Del.

WASTE PAPER BUYERS

Every school accumulates large quantities of waste paper which may be profitably baled and sold. See, also, Paper Balers

TRADE INDEX

WATER COLORS

Permanence of hue, evenness of texture, and smoothness in application on paper are some of the qualities essential for good water colors. They are furnished for school use in either the cake form, or the tube containers. See, also, Art Materials; also, Drawing Materials.

WINDOW SHADES

In the lighting of the schoolroom, much care should be exercised in the control of daylight through the use of proper shades. Shade cloth should be used which will tone the light to give eye-comfort, and bar out injurious glare. A good shade cloth will not crack, wrinkle, or show pin holes with usage.

PEDLER

Custombuilt Clarinets —
Flutes

Clarinets - Wood - Ebonite - Metal

Keys A, Bb, C and Eb

ALTO AND BASS CLARINETS
FLUTES

Pedler clarinets are now being made by the fourth consecutive generation of Pedler clarinet craftsmen — custom built by hand and day work methods to better the player's performance and give years of unfailing service and satisfaction.

As the largest exclusive builders of quality clarinets and flutes, we are in excellent position to handle every clarinet need, regardless of its nature. New or used instruments — repairs — replacements and accessories.

Pedlers are sold by the leading music dealers. However, if your dealer is unable to supply you, please write us.

Light Up the Football and Athletic Field

*The Benjamin
Elliptical Angle
Reflector*

*The Benjamin
Concentrating Type
High Mounting Unit*

With Benjamin Outdoor Lighting Equipment

Other Recreational Areas

*The Benjamin
Duo-Service
Floodlight*

There is Benjamin equipment available for other outdoor recreational areas, such as skating rinks, hockey rinks, quotts, outdoor swimming pools, archery ranges, etc. Among the Benjamin fixtures developed for outdoor lighting are the Duo-Service Floodlight and the Diffusing Floodlight.

*The Benjamin
"Type 79"
Glassteel Diffuser*
beautifully designed

Schoolrooms

For the interior lighting of schoolrooms, the Benjamin "Type 79" Glassteel Diffuser is admirably adapted. It provides excellent distribution of light for general illumination, and is and constructed.

Night photo of the Ashtand College athletic field, Ashtand, Ohio, lighted with Benjamin Concentrating Type High Mounting Units. Notice remarkably uniform level of illumination throughout the playing area.

LIKE miniature golf, tennis, baseball, etc., high school football has entered the realm of night-time sports, and now parents, too, can attend the games.

Philosophically, this development in high school athletic games means more enjoyment for more people, since the leisure hours of most adults are confined to the evening.

Installation of equipment is merely a matter of days. The cost of current is negligible, and Benjamin equipment pays for itself in a short time by the increased attendance.

Benjamin equipment meets the needs of the various types of athletic fields. Write for data sheets.

Request also a copy of "Lighting of Night Football Playing Fields," by Russell L. Gnin, principal of the Westville, Ill., high school.

Jacobsen 4-Acre Power Lawn Mower

Beautiful School Lawns At Lower Cost

WELL kept school lawns, buildings and equipment are important in moulding the ideals and habits of the student. There is a Jacobsen model for every lawn, large or small.

The Jacobsen 4-Acre Heavy Duty Mower is used by the largest colleges and universities. With or without riding sulky it will cover more ground per day than any other mower of same size, and with a lower upkeep cost than any other walking-type power mower. It has a 24-inch reel, an enclosed gear drive, auto-type differential, separate clutch control

of traction and cutting unit, self-sharpening reel and other outstanding refinements. A Sickle-Bar clipping attachment may be had which clips dandelions and other weeds at the same time the lawn is mowed.

The "Junior" Power Mower is a quality Jacobsen Product with a 19-inch cutting reel. Suitable for moderately large lawns—particularly efficient on terraces.

FREE Demonstrations

A trial demonstration given on request, without obligation.

Write for free book, "Lawns Beautiful."

150 Pounds
Pressure

CRANE VALVES

2500 Pounds
Pressure

School men should consider pennies by saving vs. dollars by economy

It is shortsighted to lavish equipment on one department at the expense of another. But how much economy will plumbing and heating stand? Certainly by purchasing inferior materials efficiency is not only lowered, but the health of children is endangered. Then, too, it is an experiment that is paid for by increased maintenances, costly repairs and expensive replacements.

Crane engineers have studied this problem. They are prepared to offer a solution to it . . . to lower the cost of plumbing and heating systems without endangering either efficiency or the building budget. Already they have done it for numberless schools throughout the country. If you will drop into the nearest Crane Exhibit Rooms, you will be shown how they can do it for you.

PLUMBING AND HEATING MATERIALS
CRANE CO., 836 SOUTH MICHIGAN AVENUE, CHICAGO, ILL.

Branches and Sales Offices in One Hundred and Ninety Cities

Consider these exquisite matters

WONDROUS fruits, tender as rose petals — fruits plucked at the precise moment in which they attain their dew dappled perfection. Sealed in their neat containers in bright clear syrups without loss of even a whisper of their field-fresh flavor.

Such are Richelieu and Ferndell and Batavia fruits—selected and prepared to epicurean standards and priced to average pocketbooks.

Vegetables saturated with the freshness of fragrant fields

at dawn, with flavors that send little ripples of “Oohs” and “Ahs” coursing around the dinner table—so incomparably fine that we contemplate them with reverence.

You will find more than 500 different Richelieu and Ferndell and Batavia foods—each one identical, no matter which label you buy them under. Each one prepared from our own special recipes, using only the very finest varieties of each fruit and vegetable and ingredient.

Sprague, Warner & Company
600 West Erie Street
Chicago, Illinois
